

# Rapid Antigen Testing (RAT)

*How to order and collect*

## Order online – Fill in RAT Order Form

<https://ncts.force.com/ratorder/s/>

Your business must be registered as a critical service. Your worker must be a critical worker, vaccinated, a confirmed close contact and not symptomatic.

The form must be completed by the worker, not the business.

## Select collection point

In the online form you will be asked via a dropdown box to select where you want to pick up your RATs.

## Collect RATs from selected collection site

You or your worker must present:

- ☐ RAT Order Number
- ☐ Personal identification (e.g. driver's licence or passport)
- ☐ Notification that confirms you are a close contact (e.g. text message or app notification)
- ☐ Letter from the Critical Services Register (confirmation email)
- ☐ Critical worker authorisation letter (from your employer)
- ☐ Vaccine pass

You can pick up RATs on behalf of other people but you need to ensure the person collecting them has all the documentation.
